

共用數據環境 CDE

COMMON DATA ENVIRONMENT

共用數據環境是一個單一資訊來源用作收集、管理及發放文件、圖像模型及非圖像數據予工程團隊。創建單一資訊來源能夠促進工程團體成員之間的合作及有助於避免檔案重複和錯失。

The Common Data Environment (CDE) is the single source of information used to collect, manage and disseminate documentation, the graphical model and non-graphical data for the whole project team. Creating this single source of information facilitates collaboration between project team members and helps avoid duplication and mistakes.
